The [U.S. Environmental Protection Agency](#) (EPA), in collaboration with the [U.S. Geological Survey](#) (USGS) and the

[National Oceanic and Atmospheric Administration](#)

(NOAA), collaborated on this report that discusses the impacts of sea-level rise on the physical characteristics of the coast, on coastal communities, and the habitats that depend on them. The report, Coastal Sensitivity to Sea-level Rise: A Focus on the Mid-Atlantic Region examines multiple opportunities for governments and coastal communities to plan for and adapt to rising sea levels.
